Dear, \_\_\_\_\_

During a recent inspection of (County Road Name), it was noted that there is a dead or leaning ( oak, pine, etc. tree ) located on your property on ( County Road Name) that is in danger of falling into the roadway.

Because this (oak, pine, etc. tree ) is located off the County Right of Way, we are unable to remove it. However, we would be glad to assist you with the traffic control during the removal of it. We ask that you contact us a couple of days in advance in order for us to schedule our work accordingly.

We hope that you understand this request is made in the interest of county roadway safety. We'd also like for you to be aware of your personal liability concerning any harm that may arise to the traveling public should this tree fall onto the roadway.

We respectfully request that you consider removing this tree at your earliest convenience. If you need further information or assistance, please contact me at (229) 248-3037.

Sincerely,  
Public Works Director

(a) It shall be unlawful for any person to obstruct, encroach upon, solicit the sale of any merchandise on, or injure materially any part of any public road. For purposes of this Code section, the term "obstruct" shall include without limitation the causing of any buildup of rock, gravel, mud, dirt, chemicals, or other materials by continued ingress or egress of vehicles or of any natural waters dammed or redirected by diversion to an extent which presents a hazard to the traveling public.

(b) Any person who unlawfully obstructs, encroaches upon, or injures said public road shall be responsible for reimbursing the Department of Transportation or the applicable local governing authority in the case of a road which is part of a county road system or municipal street system for the costs of removal of said obstructions or encroachments and the costs of repairs to the public road incurred by such department or local governing authority, including any costs associated with traffic management; provided, however, that such costs shall be limited to those costs which are directly incurred from such damages. Costs incurred for traffic management may include, but not be limited to, costs incurred for flagging, signing, or provision of detours, provided that these activities are directly caused by the obstruction, encroachment, or injury to the public road system.
