DECATUR COUNTY, GEORGIA
CONTRACT AGREEMENT FOR
BUSINESS PERSONAL PROPERTY AUDITS
2023 TAX YEAR

DECATUR COUNTY, GEORGIA

THIS CONTRACT AND AGREEMENT made and entered into this 10th day of January, 2023 by and between **DECATUR COUNTY, GEORGIA**, a political subdivision of the state of Georgia, acting by and through its Board of Commissioners and Board of Assessors, hereinafter referred to as "County", and **ADVAL CONSULTING, LLC**, a Georgia Company with its principal place of business in SAVANNAH, GA, hereinafter referred to as "Company".

WITNESSETH

That for and in consideration of the mutual promises and agreements herein contained and other good and valuable consideration, the County hires, employs and contracts with the Company to perform certain business personal property audits, and the Company hereby accepts said hiring and employment and contracts with the County, all upon the following terms and conditions.

**BUSINESS PERSONAL PROPERTY
AUDIT SERVICES TO BE PROVIDED**

1. Our engagement team will work closely with County personnel on a coordinated basis to obtain and organize data on an ongoing basis to be efficiently utilized in our audit process for the review and update of certain Commercial, Industrial and Aircraft accounts. The County shall retain responsibility for the listing and valuation of Boats and all other personal property. The Company will utilize fixed asset depreciation schedules, balance sheets or profit and loss statements, and data secured by the County through personal property tax reporting forms as a basis for our audits.

2. Company personnel will examine the Personal Property Reporting Forms, fixed asset depreciation schedules, and inventory data submitted for each account. If any of the required data is missing or appears inadequate, the County will follow up with an additional request to the taxpayer as deemed necessary. Document Request forms will be supplied by the Company for this purpose. Should follow up efforts fail to result in obtaining the required data, we will take appropriate steps to ensure the properties are not valued at less than fair market value. In these cases, it may be necessary that estimates of value be made by our experienced appraisers, with the opportunity for the delinquent or negligent filers to provide the requested necessary data during the informal appeals process. Assessors may opt to subpoena records if the taxpayer is non-responsive to requests.

The Company will make field visits to examine records and inspect facilities as necessary and spend sufficient days in the County offices in order to ensure that the audit is done properly and efficiently.

3. Once all necessary data has been collected, our qualified staff will apply the appropriate depreciation tables to the costs of each of the assets or groups of assets. This data will be input and proofed by the County on their Personal Property software for calculation of 100% taxable values. County staff is responsible for the review and approval of all data prior to submission of the digest.

4. The County will make available adequate office space and telephones for use by the Company. The County will furnish necessary computer forms, postage, printing, listing forms, etc.. County personnel will be responsible for all computer data entry, and generating and sending Valuation and Assessment Notices to each account.

5. The Company will provide skilled staff for up to one day of informal meetings to discuss assessed values with taxpayers. Meeting times and date will be mutually determined by the Company and County.

6. At the conclusion of informal meetings, the Company will recommend any adjustments of value to the Board of Assessors for their consideration.

PROJECT REQUIREMENTS

In response to typical project requirements for engagements of this type, the following is offered:

1. The Company staff working in the County may include a project manager and a field manager who, in addition to other duties as may be assigned to him, shall establish with the County a time and progress schedule for each phase of the project and insure that there is a consistent timely flow of data and information between the Company and the County so as to achieve maximum efficiency of both entities.
2. When presented with false or inadequate documentation for personal property, one or all of the following procedures may be required:
 - Formal letter request for documentation issued by the County
 - Estimate values past on past experience with similar businesses
 - Site inspections by the Company
 - County subpoena of documents
3. Replacements, rebuilds and repairs are typically addressed as follows:
 - Replacements - include at 100% cost and delete item replaced if disposal is reported
 - Rebuilds - normally included at 50% cost due to excessive labor costs and the fact that original components cannot normally be identified to be deleted
 - Repairs - normally excluded. Typically is not an enhancement to value.
4. We have participated in Personal Property audits and reviews in the following Georgia Counties:
Appling, Butts, Chattooga, Coffee, Decatur, Forsyth, Hall, Jeff Davis, Jefferson, Lamar, Lowndes, Madison, Muskogee, Seminole, Twiggs.
5. In determining if certain assets are included as either Real or Personal Property, we would perform the following procedures as required:
 - review Company assets ledgers and depreciation schedules for both Real and Personal Property
 - review County real estate cards to determine which, if any, items are valued as Real Property
 - perform a physical inspection, if needed, to verify the existence and extent of the items
 - review lease documents to determine ownership
6. Obsolescence of any type can best be identified by making facility inspections, interviewing production and accounting personnel at the facility, and reviewing financial documents relating to the facility.

Functional Obsolescence - excess capacity or non-utilization of assets may be recognized by making adjustment to the replacement cost estimates of the subject assets. Excess capacity can be accounted for by direct adjustment, if necessary, or by using exponential engineering factors.

Economic Obsolescence - due to the difficulty in identifying and quantifying economic obsolescence, it may not be recognized unless suggested by the taxpayer. It will be primarily the responsibility of the taxpayer to analyze and determine the amount of economic obsolescence, if any, which is found in a particular industry or company. We will review any claims of economic obsolescence presented by the taxpayer and advise the County of our findings. We will perform our own analysis of economic obsolescence outside of this contact and only if requested by the County.

SCHEDULING

1. The Company will begin the organization, planning and start-up of this project within 60 days after the signing of this contract by the County.
2. Sufficient up-front time will be spent in the assessor's office to allow us to familiarize ourselves more fully with the status of the accounts which currently exist. We will also assess current practices of reviewing and processing accounts, follow-up on delinquent and inadequate returns, discovery procedures and valuation techniques.
3. During the early stages of the engagement the County will obtain Sales Tax and Business License lists so that they may begin the discovery process.
4. We would plan to begin updating accounts in March of 2023. This will allow the County to make an accurate determination of values at the earliest possible date.
5. As soon as year 2023 returns are submitted to the assessors by the taxpayers, each account will be logged by County personnel to indicate when it is received and to ensure that an accurate record of returns is maintained.
6. The County will maintain a file for each Personal Property account which will include all data for 2023 and prior years. These original files will not be removed from the County offices without prior authorization of the Chief Appraiser. Copies of returns and supporting data may be reproduced by the County for use by the Company away from the County offices under certain circumstances.
7. A maximum of two days of field and office training will be provided to Personal Property personnel during the course of the engagement.
8. Once all selected files have been audited and worked by the Company, values will be calculated by the County on their computers for mailing of Valuation and Assessment Notices. County is responsible for all data entry and review of data entry.
9. After assessment notices have been sent, and any requests for appeals made, the County will then schedule hearings over a consecutive two day period which is mutually agreed upon by both County and Company.

STARTING AND COMPLETION DATES

Following execution of this contract, work on the project shall begin within 60 days. The project shall be completed by April 30, 2023; with the exception of assessment hearings which will not commence until forty-five days after the mailing of Valuation and Assessment Notices.

In the event the project, with the exception of assessment hearings and appeals, is not completed by April 30, 2023, The Company shall incur a penalty of \$100 per working day for each day until the project is completed, provided nevertheless, the Company shall receive an extension of the completion time beyond April 30, 2023, for each day the project is delayed beyond the Company's control. Including, but not limited to, changes ordered in the work, lack of adequate cooperation by taxpayers, fire, natural disasters, unavoidable casualties or other causes beyond the Company's control which may reasonably justify delay, including, but limited to, failure on the part of the County to timely perform tasks which are supportive of the Company's work. Requests for extension of contract time shall be made within a reasonable time following the occurrence of the event which causes or results in the delay. The County shall respond to such request within 15 days, expressing its agreement or disagreement with the request. In the event the parties cannot agree, the dispute shall be submitted to arbitration.

DECATUR COUNTY, GEORGIA
CONTRACT AGREEMENT FOR
BUSINESS PERSONAL PROPERTY AUDITS
2024 TAX YEAR

DECATUR COUNTY, GEORGIA

THIS CONTRACT AND AGREEMENT made and entered into this 16th day of January, 2023 by and between **DECATUR COUNTY, GEORGIA**, a political subdivision of the state of Georgia, acting by and through its Board of Commissioners and Board of Assessors, hereinafter referred to as "County", and **ADVAL CONSULTING, LLC**, a Georgia Company with its principal place of business in SAVANNAH, GA, hereinafter referred to as "Company".

WITNESSETH

That for and in consideration of the mutual promises and agreements herein contained and other good and valuable consideration, the County hires, employs and contracts with the Company to perform certain business personal property audits, and the Company hereby accepts said hiring and employment and contracts with the County, all upon the following terms and conditions.

**BUSINESS PERSONAL PROPERTY
AUDIT SERVICES TO BE PROVIDED**

1. Our engagement team will work closely with County personnel on a coordinated basis to obtain and organize data on an ongoing basis to be efficiently utilized in our audit process for the review and update of certain Commercial, Industrial and Aircraft accounts. The County shall retain responsibility for the listing and valuation of Boats and all other personal property. The Company will utilize fixed asset depreciation schedules, balance sheets or profit and loss statements, and data secured by the County through personal property tax reporting forms as a basis for our audits.
2. Company personnel will examine the Personal Property Reporting Forms, fixed asset depreciation schedules, and inventory data submitted for each account. If any of the required data is missing or appears inadequate, the County will follow up with an additional request to the taxpayer as deemed necessary. Document Request forms will be supplied by the Company for this purpose. Should follow up efforts fail to result in obtaining the required data, we will take appropriate steps to ensure the properties are not valued at less than fair market value. In these cases it may be necessary that estimates of value be made by our experienced appraisers, with the opportunity for the delinquent or negligent filers to provide the requested necessary data during the informal appeals process. Assessors may opt to subpoena records if the taxpayer is non-responsive to requests.

The Company will make field visits to examine records and inspect facilities as necessary and spend sufficient days in the County offices in order to ensure that the audit is done properly and efficiently.
3. Once all necessary data has been collected, our qualified staff will apply the appropriate depreciation tables to the costs of each of the assets or groups of assets. This data will be input and proofed by the County on their Personal Property software for calculation of 100% taxable values. County staff is responsible for the review and approval of all data prior to submission of the digest.
4. The County will make available adequate office space and telephones for use by the Company. The County will furnish necessary computer forms, postage, printing, listing forms, etc. County personnel will be responsible for all computer data entry, and generating and sending Valuation and Assessment Notices to each account.
5. The Company will provide skilled staff for up to one day of informal meetings to discuss assessed values with taxpayers. Meeting times and date will be mutually determined by the Company and County.
6. At the conclusion of informal meetings, the Company will recommend any adjustments of value to the Board of Assessors for their consideration.

PROJECT REQUIREMENTS

In response to typical project requirements for engagements of this type, the following is offered:

1. The Company staff working in the County may include a project manager and a field manager who, in addition to other duties as may be assigned to him, shall establish with the County a time and progress schedule for each phase of the project and insure that there is a consistent timely flow of data and information between the Company and the County so as to achieve maximum efficiency of both entities.
2. When presented with false or inadequate documentation for personal property, one or all of the following procedures may be required:
 - Formal letter request for documentation issued by the County
 - Estimate values past on past experience with similar businesses
 - Site inspections by the Company
 - County subpoena of documents
3. Replacements, rebuilds and repairs are typically addressed as follows:
 - Replacements - include at 100% cost and delete item replaced if disposal is reported
 - Rebuilds - normally included at 50% cost due to excessive labor costs and the fact that original components cannot normally be identified to be deleted
 - Repairs - normally excluded. Typically is not an enhancement to value.
4. We have participated in Personal Property audits and reviews in the following Georgia Counties:
Appling, Butts, Chattooga, Coffee, Decatur, Forsyth, Hall, Jeff Davis, Jefferson, Lamar, Lowndes, Madison, Muskogee, Seminole, Twiggs.
5. In determining if certain assets are included as either Real or Personal Property we would perform the following procedures as required:
 - review Company assets ledgers and depreciation schedules for both Real and Personal Property
 - review County real estate cards to determine which, if any, items are valued as Real Property
 - perform a physical inspection, if needed, to verify the existence and extent of the items
 - review lease documents to determine ownership
6. Obsolescence of any type can best be identified by making facility inspections, interviewing production and accounting personnel at the facility, and reviewing financial documents relating to the facility.

Functional Obsolescence - excess capacity or non-utilization of assets may be recognized by making adjustment to the replacement cost estimates of the subject assets. Excess capacity can be accounted for by direct adjustment, if necessary, or by using exponential engineering factors.

Economic Obsolescence - due to the difficulty in identifying and quantifying economic obsolescence, it may not be recognized unless suggested by the taxpayer. It will be primarily the responsibility of the taxpayer to analyze and determine the amount of economic obsolescence, if any, which is found in a particular industry or company. We will review any claims of economic obsolescence presented by the taxpayer and advise the County of our findings. We will perform our own analysis of economic obsolescence outside of this contact and only if requested by the County.

SCHEDULING

1. The Company will begin the organization, planning and start-up of this project within 60 days after the signing of this contract by the County.
2. Sufficient up-front time will be spent in the assessor's office to allow us to familiarize ourselves more fully with the status of the accounts which currently exist. We will also assess current practices of reviewing and processing accounts, follow-up on delinquent and inadequate returns, discovery procedures and valuation techniques.
3. During the early stages of the engagement the County will obtain Sales Tax and Business License lists so that they may begin the discovery process.
4. We would plan to begin updating accounts in March of 2024. This will allow the County to make an accurate determination of values at the earliest possible date.
5. As soon as year 2024 returns are submitted to the assessors by the taxpayers, each account will be logged by County personnel to indicate when it is received and to ensure that an accurate record of returns is maintained.
6. The County will maintain a file for each Personal Property account which will include all data for 2024 and prior years. These original files will not be removed from the County offices without prior authorization of the Chief Appraiser. Copies of returns and supporting data may be reproduced by the County for use by the Company away from the County offices under certain circumstances.
7. A maximum of two days of field and office training will be provided to Personal Property personnel during the course of the engagement.
8. Once all selected files have been audited and worked by the Company, values will be calculated by the County on their computers for mailing of Valuation and Assessment Notices. County is responsible for all data entry and review of data entry.
9. After assessment notices have been sent, and any requests for appeals made, the County will then schedule hearings over a consecutive two-day period which is mutually agreed upon by both County and Company.

STARTING AND COMPLETION DATES

Following execution of this contract, work on the project shall begin within 60 days. The project shall be completed by April 30, 2024; with the exception of assessment hearings which will not commence until forty-five days after the mailing of Valuation and Assessment Notices.

In the event the project, with the exception of assessment hearings and appeals, is not completed by April 30, 2024, The Company shall incur a penalty of \$100 per working day for each day until the project is completed, provided nevertheless, the Company shall receive an extension of the completion time beyond April 30, 2024, for each day the project is delayed beyond the Company's control. Including, but not limited to, changes ordered in the work, lack of adequate cooperation by taxpayers, fire, natural disasters, unavoidable casualties or other causes beyond the Company's control which may reasonably justify delay, including, but limited to, failure on the part of the County to timely perform tasks which are supportive of the Company's work. Requests for extension of contract time shall be made within a reasonable time following the occurrence of the event which causes or results in the delay. The County shall respond to such request within 15 days, expressing its agreement or disagreement with the request. In the event the parties cannot agree, the dispute shall be submitted to arbitration.

COMPENSATION AND TERMS

In consideration of the Company furnishing to the County Personal Property Reappraisal services as defined herein, said services being acceptable to the County, the Company shall receive from the County the sum of:

TWENTY-SIX THOUSAND 00 HUNDRED FIFTY DOLLARS
(\$26,500)

This fee estimate is based on the following schedule of accounts:

<u>CATEGORY</u>	<u>NUMBER OF ACCOUNTS</u>
Industrial	40
Commercial	90
<u>Aircraft</u>	<u>20</u>
Total Accounts	150
Taxpayer Meetings	1 day

For those accounts discovered or which exceed the totals in each category above, the County will be charged using the attached *Classification and Cost Schedule*.

Where a taxpayer has business property in more than one (1) township/district, each township/district will comprise one (1) account. For leased and loaned accounts, each township/district or separate account number will comprise one account.

The above quoted fee includes the audit and updating of certain Industrial, Commercial and Aircraft personal property accounts as outlined above. Each account will be reviewed and audited by the Company based on past experience with properties of a similar nature and upon data submitted with the returns or subsequently obtained.

Any costs for Personal Property Software has not been included in the fee quoted above.

Our appraisers will consider and utilize the Cost and Market approaches in determining values for all accounts. Should it become necessary to perform an additional "Income" approach to address certain claims of reduced values due to economic or functional obsolescence, additional fees will be incurred, upon the County's approval, based on the attached *Classification and Cost Schedule*.

A maximum of one day of informal taxpayer meetings are included in the quoted fee for Business Personal Property. Additional days of meetings or hearings scheduled by the County will be based on the attached *Classification and Cost Schedule*.

For fee payment purposes the Business Personal Property Audit, as outlined under this contract, shall be deemed completed after all contracted Business Personal Property accounts have been audited by the Company and data transmitted to the County, Valuation and Assessment Notices mailed, and informal taxpayer meetings held for the 2024 tax year. At such time of completion, all fees as outlined in this contract, including those generated as a result of "discovered" properties and additional services performed at the request of the County, will be due and payable in full. Board of Equalization hearings are not included in the above quoted fees.

The Company shall furnish monthly invoices for said services, identifying the percentage of progress for the work, and reflecting the cost of the work performed in the preceding month. The Company shall receive payments in monthly installments, beginning with the first day of the following calendar month in which work under the contract began.

Payments may be withheld at any payment date, provided the progress and quality of work is unsatisfactory in the opinion of the Assessors and the Commissioners. Provided, however, that a 1.5% per month late charge shall be added to any invoice not paid by the twentieth of said following month.

STATUS OF PARTIES AS INDEPENDENT CONTRACTORS

The Company represents to the County that it is fully experienced and properly qualified to perform the work provided for herein and that it is properly equipped, organized and financed to perform such work. The Company shall finance its own operations hereunder, shall operate as an independent contractor and not as the agent of the County, and nothing contained herein in this Agreement shall be construed to constitute the Company or any of its employees, servants, agents or subcontractors as a partner, employee, servant or agent of the County. Nor shall either party to this agreement have any authority to bind the other in any respect, it being intended that each shall remain an independent contractor.

INDEMNIFICATION

The Company shall assume all liability and risks for all damages and injuries to persons or property which shall arise or may arise or accrue out of the conduct of any activity relating to the performance of this Agreement by the Company, its officials, employees, agents or servants and save harmless the County from any and all liability, actions, causes of actions, suits, damages, attorneys fees and costs which may arise or accrue due to the conduct of any activity relating to the performance of this Agreement by the Company, its officers, employees, agents or servants.

ARBITRATION

Any dispute which arises under this contract, and which cannot be resolved within a reasonable period of time may be submitted to arbitration by either party notifying the other party, in writing, that arbitration is being invoked and naming its arbitrator. The opposite party shall respond within 15 days naming its arbitrator and the arbitrators thus chosen shall select a third arbitrator. At a time convenient within the following 30 days, the arbitrators shall meet to hear evidence from both parties and shall render their decision in writing within 5 days thereafter, which decision shall be binding on both parties.
